FACIAL RECOGNITION SYSTEMS

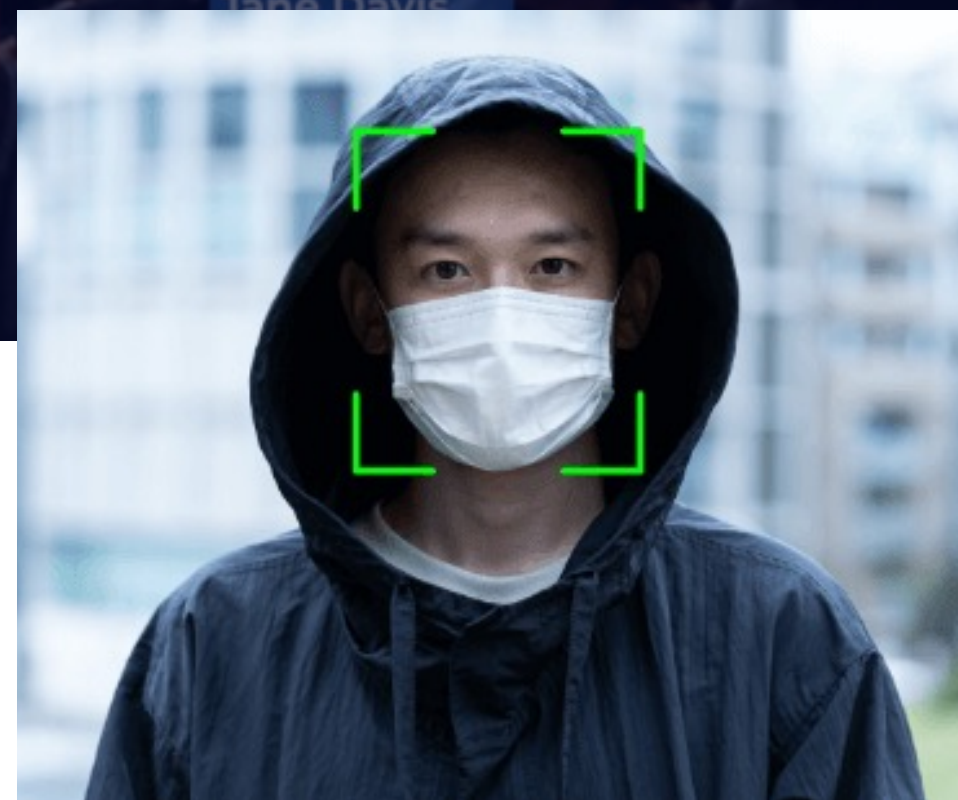

THE WORLD'S LEADING FACIAL RECOGNITION

UNPARALLELED SPEED | ACCURACY | PRIVACY PROTECTION

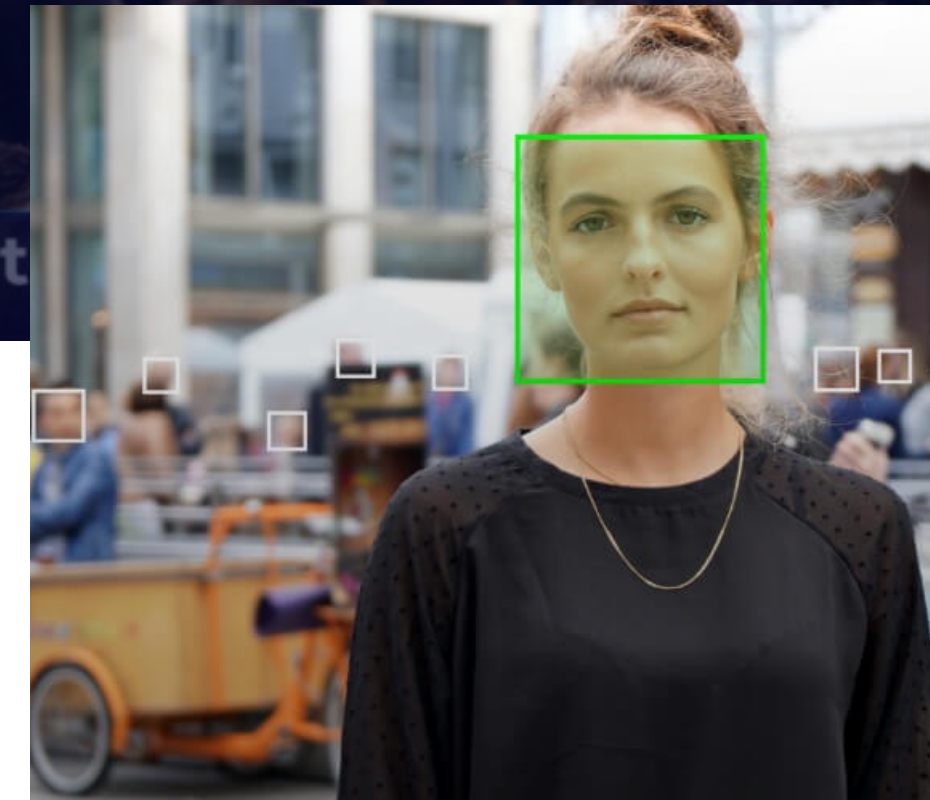

Image in data base:
20 years younger

Identify individuals in watchlists even under the most challenging conditions, overcoming common issues such as face coverings and harsh environments at unparalleled speed. Rapidly search databases of over one million points of interest **in less than 10 milliseconds.**

Powered by Autonomous AI, the Fortify facial recognition technology exceeds the human brain's ability to accurately identify individuals, regardless whether they are wearing masks or other form of face covering, low light, poor weather conditions or if photos are taken at acute angles.

Corsight takes privacy very seriously. It holds itself to the highest standards in personal and data privacy protection. The system is compliant with regional data privacy requirements (GDPR, LGPD, PDPA) and is designed so that images cannot be reconstructed from data.
